

NEBOSH NATIONAL CERTIFICATE IN OCCUPATIONAL SAFETY & HEALTH

The Certificate is a widely recognised qualification and provides an excellent grounding in the essentials of health & safety for personnel accountable for these responsibilities in their organisation.

The Certificate is for personnel e.g. managers, supervisors, non-safety specialists etc with health & safety responsibilities and who need a grounding and recognised qualification in occupational safety and health.

Learning Outcomes

After successfully completing the course, the manager will be better able to:

- Understand the legal framework, moral and economic requirements & Implications for good standards in health and safety within an organisation.
- Develop, promote & communicate an effective health & safety culture in an organisation.
- Identify the key features of a health & safety policy, the preparations & performance review of a health & safety audit.
- Understand the importance of proactive & reactive health & safety monitoring measures.
- Identify general and specific hazards in the workplace & carry out risk assessments, record findings & review procedures.
- Advise on strategies for controlling hazards, reducing risks & applying safe systems of work.
- Identify fire hazards & consequential risks, advise on measures to minimise fire risks & develop fire procedures.
- Identify ill health effects of physical processes of work & the environment & recommend suitable measures to combat risks.
- Explain the processes & procedures for investigating & reporting accidents and incidents of work.

Certification – Delegates are awarded the Certificate on successful completion of two 2-hour written papers: Management of Safety & Health, Controlling Hazards and a practical assessment.

Suggested Further Training

-  **NEBOSH National Diploma**
-  **NEBOSH Fire Certificate**
-  **NEBOSH Certificate in Construction Safety & Health**

Benefits of NEBOSH Qualifications:

NEBOSH qualifications in health, safety and risk are globally recognised by employers in all industry sectors. REC CHSS are one of the leading providers of the NEBOSH Certificate (www.nebosh.org.uk).

NEBOSH have unitised the National General Certificate, Fire Certificate and Certificate in Construction Safety & Health. This offers you the opportunity to build your existing qualifications and develop your breadth of skills. The Management of Health & Safety is the core unit to which other units can be added within 5 years of successfully completing it.
