

Air Quality Services for Local Authorities

REC is proud to provide the following air quality assessment support services for Local Authorities:

- LAQM Review and Assessment
- Detailed Assessment
- Action planning and source apportionment
- Continuous pollutant monitoring
- Periodic pollutant monitoring
- Odour Assessment
- Site Audits for Environmental Permitted processes
- Peer reviews
- Nuisance Investigation

REC's dedicated team of air quality specialists has significant experience in advising and working with Local Authorities on a wide range of projects. From large scale pollution monitoring campaigns to peer reviews of third party air quality assessments, we are able to provide the correct scope of works and specific methodologies to suit any requirement and budget.

REC maintains a full range of dispersion modelling software including ADMS-Roads, ADMS-4, Breeze ROADS, Screen View, DMRB and Breeze AERMOD for assessment of all types of pollution sources.

Our team has provided peer review services of both air quality and odour assessments, offering an impartial, expert opinion on reports submitted in support of planning and Environmental Permit applications. This service can help fill skills gaps whilst ensuring peace of mind that air quality and odour is being adequately considered within the regulatory process.

Whether in support of the LAQM process or to investigate nuisance complaints, our local teams will deliver bespoke advice tailored to your exact needs. With support provided throughout the project, you can be assured that we are able to address any issue you may be facing.

For further information on any of the REC Air Quality services, or how we can assist you with your air quality requirements, please contact Jethro Redmore, Air Quality Impact Group Manager, on: **07501720383** or email: jredmore@recltd.co.uk, alternatively further information can be viewed via our website www.recltd.co.uk.
