

Environmental Management & Compliance

REC Environmental Management provide complete environmental management and compliance.

As a group of professionals we are dedicated to providing clients with the necessary support for the benefit of their business, its compliance, efficiency and continued environmental improvement.

The Environmental Management team consists of technically competent, highly experienced staff from both operational and consulting backgrounds which includes; chartered environmentalists, registered environmental auditors and members of the Institute of Environmental Management & Assessment.

Our clients range from small / medium sized enterprises and large corporations from a range of business sectors, through to supporting local government and NGO's. Irrespective of the size and service needs, REC Environmental Management delivers the same level of professionalism and support to our clients.
