

Environmental Planning Services

REC is proud to provide the following environmental assessment support services to the land development and planning sector:

-  Environmental Impact Assessment
-  Air Quality Assessment
-  Acoustics, Noise and Vibration
-  Contaminated Land Investigation and Assessment
-  Geotechnical Investigation and Assessment
-  Site Constraint Reports
-  Lighting Impact Assessment
-  Daylight, Sunlight and Overshadowing Assessment
-  Flood Risk Assessment
-  Ecology

With significant experience in delivering on a wide range of projects, from small sites with specific constraints to major development schemes, we are able to provide the correct scope of works and specific methodologies to suit any project and budget.

We can supply individual contributions in specialist areas or full co-ordination of all environmental inputs required in support of planning submissions. With the ability to integrate fully into wider project teams or form and manage our own, we are able to provide professional, cost effective solutions for all development sizes.

Whether in support of a detailed planning application or to investigate site suitability, our local teams will be able to deliver a bespoke assessment tailored to your exact needs. With support provided throughout the planning submission and beyond to advising on condition discharge, we're with you at every step of the project.

For further information on any of the REC services, or how we can assist you with your planning requirements, please contact us on **0845 676 9303** where one of our consultants will be happy to be of assistance. Alternatively, further information can be viewed via our website www.recltd.co.uk.
