

Environmental Industrial Services

REC is proud to provide the following environmental assessment support services to the industrial sector:

-  Environmental Permit Applications
-  Air Quality Assessment and Dispersion Modelling
-  Acoustics, Noise and Vibration
-  Site Condition Reports
-  Dust and Odour Management Plans
-  Nuisance Investigation
-  Best Available Technique (BAT) Assessment
-  Emissions Monitoring
-  Ambient Pollution Monitoring
-  Energy Efficiency Assessments
-  H1 Assessments

With significant experience in delivering on a wide range of projects, from small sites with specific issues to major industrial facilities, we are able to provide the correct scope of works and specific methodologies to suit any project and budget.

We can supply individual contributions in specialist areas or full co-ordination of all environmental inputs for full Environmental Permit applications. With the ability to integrate fully into wider project teams or form and manage our own, we are able to provide professional, cost effective solutions for all proposals.

With the ability to provide support throughout the Environmental Permitting application and beyond through plant commissioning to operation, our local teams will be able to deliver bespoke services tailored to your exact needs.

For further information on any of the REC services, or how we can assist you with your environment requirements, please contact us on **0845 676 9303** where one of our consultants will be happy to be of assistance. Alternatively, further information can be viewed via our website www.recltd.co.uk.
