

# Lighting Assessments

The requirement for lighting assessments to be completed in support of planning applications has increased significantly in recent years. Artificial light is now a statutory nuisance under the Environmental Protection Act. It is therefore essential to ensure artificial light is adequately controlled.

REC are able to provide complete lighting assessment services through our national team. From baseline light assessments to detailed lighting impact assessments we are able to provide a fully tailored package to address the specific requirements of your site.

## Services Overview:

- Baseline Lighting Surveys/Assessments
- Detailed Lighting Impact Assessments
- Daylight, Sunlight and Overshadowing assessments
- Assessments for stand-alone technical reports & Environmental Impact Assessments
- Modeling of Lighting Sources using specialist software

REC provides lighting assessments for new residential, commercial and industrial developments. For more information on REC's Lighting services visit our website [www.recltd.co.uk](http://www.recltd.co.uk) or contact us on 0845 676 9303.
